## **PRINCIPLES**

**Government:** We believe government exists solely to protect the people's God-given rights.

**The Constitution:** We believe the Constitution was prepared by wise men acting under the inspiration of God, and if honored and followed as the founders intended, it will assure the American people of a national government that will not violate their unalienable rights.

**Human Life:** We believe in the fundamental human right to life for the unborn, ourselves, and our posterity.

**Taxes:** We oppose all tax increases and demand tax cuts at every level. We support major cuts in federal spending.

**Family:** We believe it is the responsibility of every citizen, especially public officials, to oppose philosophies and programs which usurp parental rights or diminish the role of the family.

**The Economy:** We believe a free market economy is the most effective way to motivate all citizens to be productive and to develop their talents and abilities.

**Education:** We believe in the right of parents to guide the education of their children without oppressive government regulation.

**Elected Officials:** We believe that honest wise and good men and women who are committed to constitutional principles should be sought after and supported.

**Religious Liberty:** We believe the founders of our nation had no intention of separating religion and state institutions. Their intent was to prevent government from establishing a single state religion. The purpose of the first amendment was to guarantee the free expression of religious values in any setting, public or private.
